Hi I am Martina,

my passion is to educate people about plants and trees around them, I am building in people a relation to nature. When You have more information, your brain automatically make a questions and it is a basis of proces when you create a relation to it.

Something about me, I have masters degree from Faculty of Science at Charles University. Now I am guiding in wild or in city nature (Kunratic forest, Rieger park, Letná park) and also in botanical gardens and parks (Průhonice park, Prague botanical garden, Charles University botanical garden).

During my excursion I am focusing on a simplicity, making a free atmosphere and to show you and depict the most intruiging plants and their dominant features. I use language which is understandable how children so adults.

My excursions have about 1-1,5h and they takes place in easy terrain.
Also I offer the excursion, which are created by your request.

If you are interested do not hesitate a send me an email to: martinaspiritlesa.cz
